This bill was just passed out of Senate Cmte. Some amendments that we had worked out earlier (like the amendment that allows school bd.s to continue policies that prohibit smoking by employees at official district events) were made before the bill was overwhelmingly supported in cmte. To make an amendment of this nature at this point in the game may jepardize the bill. We will look for an opportunity as we move forward, but I am not optimistic. If there is any debate about legislative intent, the record will show that substantial discussion occurred in cmte on how this would protect smokers for their off-the-job SMOKING of tobacco products. 2041191109A

ALTHOUGH THE DEFINITION OF LAWFUL CONSUMABLE PRODUCTS AS FOUND IN THE BILL HAS BEEN USED BEFORE, I WOULD PREFER REFERRING TO TOBACCO PRODUCTS, NOT JUST TOBACCO. IT IS CLEARER, PARTICULARLY WHEN USING THE VERB CONSUMED. I DON'T WANT SOMEONE TO ARGUE THAT WE ARE TALKING ABOUT CHEWING TOBACCO.
